

## Antonyms

To complete this puzzle, find the correct antonym for each of the 16 words listed. This will give you all 32 words needed to fill in the grid. The number in parentheses indicate the length of the *antonym* of the listed word. The question marks show where each antonym fits, alphabetically. So, work back and forth between grid, lengths and alphabetical positions to figure out words. **SOFT** has been placed to help you get started (antonym of **HARD**). Answers are on the last page.

## Mirror Logic

Can you solve this cryptogram? Each letter has been substituted for the real letter. Once you figure out the substitution for one letter, all of the same letters in the code get the same substituted letter. Each code letter maps to a different real letter.

### Mirror Logic

Why is it that opposites reveal themselves only through judicious reflection? The opposite of a correct answer is a wrong answer, but the opposite of a simple truth is a deep truth.

*Did you notice that the code letters were the "opposite" of the real letters? Z=A, B=Y, etc.*

*Also, the second row on the chalkboard is a real cryptogram. What is the answer?*

*(Hint: two real clues are in plain sight on the chalkboard.)*
